Education

Oriental Institute of Science and Technology

Bachelor of Technology in Computer Science Engineering

CGPA: 7.81

Bhopal, Madhya Pradesh

2023–2027

Government Polytechnic Darbhanga

Diploma in Mechanical Engineering

CGPA: 8.49

Darbhanga, Bihar

2020–2023

Technical Skills

- **Programming Languages:** Java, JavaScript
- **Frontend:** HTML, CSS, JavaScript, React.js
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, SQL
- **Core Subjects:** OOPs, DBMS, Data Structures and Algorithms
- **Tools:** Git, GitHub

Projects

Peer-to-Peer Learning Platform

Tech Stack: MongoDB, Express.js, React.js, Node.js, HTML, CSS, JavaScript

- Developed a full-stack Peer-to-Peer Learning Platform using the MERN stack, enabling students to connect, share, and access study resources through a centralized web application.
- Developed reusable and responsive user interface components using React.js to deliver a seamless and intuitive user experience.
- Built RESTful APIs using Node.js and Express.js for uploading, managing, searching, and downloading notes, PDFs, and other learning materials, with data stored in MongoDB.
- Implemented secure JWT-based authentication and role-based access control for user registration, login, and protected routes.
- Integrated features such as resource categorization, search and filtering, user profiles, and file management to enhance collaboration and improve access to learning resources.

Digital Coupon Exchange & Marketplace

Tech Stack: MongoDB, Express.js, React.js, Node.js, HTML, CSS, JavaScript

- Designed and developed a centralized web platform for buying, selling, exchanging, and donating digital coupons to minimize coupon expiry and promote sustainable resource utilization.
- Built a full-stack MERN application with secure JWT-based authentication, role-based access control, and responsive user interfaces.
- Developed RESTful APIs for coupon listing, searching, filtering, exchanging, and transaction management using Node.js, Express.js, and MongoDB.
- Implemented features including coupon categorization, expiry-date tracking, wishlist management, user profiles, and real-time coupon availability to improve user engagement.
- Developed a secure data management system with coupon validation, transaction history, and user activity tracking to ensure reliable and transparent coupon management.

Certifications

- Programming in Java – NPTEL
- Database Management System (DBMS) – NPTEL
